

Axminster Skill Centre At Home

Turning Master Classes With Colwin Way

These are the YouTube videos of the 'Live' demos Colwin has been doing on FaceBook near enough each Tuesday and Thursday since the beginning of lockdown.

And there are more happening each Tuesday and Thursday. There are also a number of general woodworking videos available on the Axminster YouTube channel.

These are not in any particular order, neither in terms of date nor subject, though I have tried to put the multi-part sessions together.

Please have a look at them; we will all learn something from watching them. Colwin is one of the best tutors of woodturning (and other woodworking skills) I have come across.

Colwin obviously uses a lot of Axminster equipment but it is not rammed down your throat.

Fin and Charlie who are managing the cameras are Colwin's sons.

Live Week Episode 1 - Resin troubleshooting	Live Turning Tuesday - Turning a raised bowl Part 1
Live Week Episode 2 - Turning Wooden Fruit	Live Turning Thursday - Turning a raised bowl Part 2
